

STEM Program

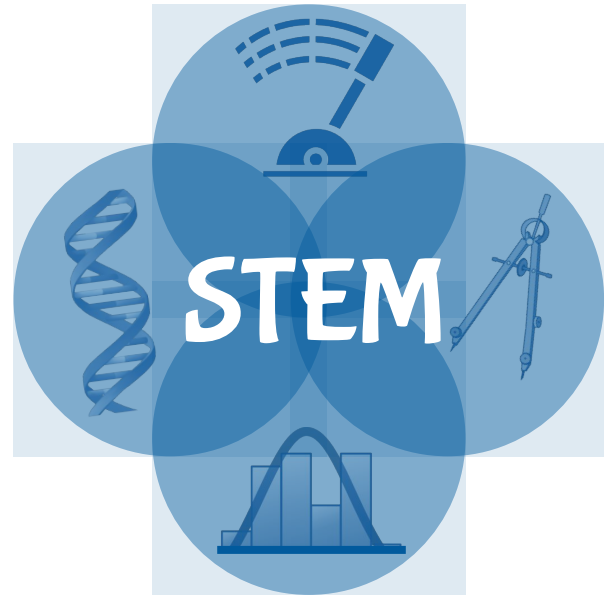

Science Technology Engineering Mathematics

Science, technology, engineering, and mathematics are essential to our lives. Everything from a ballpoint pen to a space shuttle has gone through the process of being designed, tested, and improved based on scientific research and knowledge.

Our goal is to teach students how to think like scientists while providing a broad and fun overview of all the domains of science. Through this program, students will build critical thinking skills and practice STEM methods. Students will participate in exciting hands-on activities and class discussions.

Each eight-week course is dedicated to one topic, and our small class sizes will allow students to explore and build their understanding of the sciences.

Course Level	Grade Level
STEM 100	1 st – 2 nd
STEM 200	3 rd – 5 th

Price: \$280

Includes 8 weeks of instruction and all course materials.

Course Schedule:

Thursdays, January 17th - March 14th
No Class February 21st due to mid-winter break

STEM 110 "All About Organisms"
5:45 - 6:45 pm

STEM 210 "Introduction to Genetics"
7:00 - 8:00 pm

Location: Mill Creek Center
16030 Bothell-Everett Hwy, Ste 101
Mill Creek, WA 98012
425-318-3182
