What makes Best in Class so successful?

- We provide a **combination of homework with online instruction from real instructors** to ensure our students are critically engaging with our curriculum.
- We have our **own curriculum** designed to help students achieve success by thinking critically and by excelling at standardized tests.
- We maintain **small virtual class sizes** to provide more time for personalized instruction.
- We have **assigned online class schedules** to allow tutors to monitor each individual student's growth.
- We have tutors that **actively teach** throughout the online class sessions. Students do not just come to us for help, but are actually taught throughout their lessons.
- We hire qualified and talented instructors. **All of our tutors have college educations in their fields.**
- We strive to provide top of the line education at **affordable prices.**
- **We do not waste time on repetition.** We always want to challenge our students to move ahead. Once students master a skill, we always move on to the next challenging concept.
